- 3. Based on the fact that the mental evaluation is approximately one week before the trial, the parties agree it would not give adequate time before the September scheduled Trial time to review and evaluate their cases based on the recommendations and findings of the psychiatric evaluation of the Defendant.
- 4. Due to the complexity of the global outbreak of the Coronavirus Disease 2019 (COVID-19) that continues to impact the ability of the parties to meet the current trial deadline and complete discovery, has led the parties to seek the extension of thirty (30) additional days.
- 5. For the sake of the health and safety of the parties, attorneys and their families, counsel believe and agree it is necessary to move the current Trial approximately thirty (30) days to accommodate the evaluation and conduct discovery relevant to the parties' claims and defenses as necessary.
- 6. This is the first request to continue Trial and good cause exists to grant this stipulation and it is submitted in good faith, is not interposed for delay, and is not filed for an improper purpose.
